BORN FROM CRICKET STUMPS AND CROQUET MALLETS

-

Established in 1867 by Henry Burbidge with a capital of ten shillings, our woodworking company has stood the test of time. Through economic recessions, technological revolutions, and two world wars, we have thrived, even rebuilding our factory after the Coventry Blitz. Today, we remain a family-owned business, manufacturing in the UK and drawing on a rich woodworking heritage.

While our origins lie in crafting cricket stumps and croquet mallets, we have continuously reinvented ourselves. Over the years, we have produced a diverse range of timber products, including drumsticks, guitar bodies, recorders for musical instruments, stiletto heels, and wooden components for Ten Pin Bowling alleys.

In the early 1970s, we introduced our first kitchen range, and then in the 1980s, we started supplying bathroom doors, maximising our rich woodworking legacy and talent for design to offer a superior, solid timber option in a market flooded with budget designs.

Family has always been at the core of the Burbidge business and we are proud that this solid family framework has been a major attribute to our sustained success throughout the years.

Today with the fifth generation now at the helm, Burbidge & Son is widely recognised as one of the leading UK bathroom furniture makers in the industry, thanks to this strong heritage.

A lovely yarn, but why does this matter to me you ask?

Above all because it demonstrates that you are in reassuringly experienced hands ...

You are also buying a piece of furniture that has been carefully made in our workshops in the heart of the country, crafted by long-serving and highly skilled UK-based specialists.

**WELCOME TO OUR
NEW BATHROOM FURNITURE
MAKERS COLLECTION**

-

Our Bathroom Furniture Makers collection is another new chapter in the Burbidge history book.

Alnwick, Barton, Langton, Tetbury and Harrow: five ranges embracing classic and modern designs, boasting sizing, colour and accessory options to provide freedom of personalisation. Like siblings, each have their own distinct characteristics, yet are united by beautifully hand-crafted credentials borne out of the same, fine Burbidge ancestry.

We're makers, not assemblers, our bathroom furniture is not off-the-shelf and is unique to their owners. We produce all the cabinetry in our workshops, putting us in complete control of quality and consistency, whilst enabling us to create a bathroom that perfectly fits your home.

THOUGHTFULLY DESIGNED

We've drawn on our specifications from yesteryear and blended these with contemporary concepts to create a choice of premium quality handles and knobs that can be added to each of the timber Bathroom Furniture Makers ranges.

Dial up tradition with classic cup handles or inject a more discreet feel with neat, circular bronze knobs.

Tetbury in Baltic Green

Tetbury's corner base and mirrored wall units are designed to maximize storage capacity while occupying a smaller footprint. This makes them particularly suitable for areas where space is limited, such as cloakrooms or en-suite bathrooms.

The blue green hue of Baltic Green creates a dramatic scheme that beautifully highlights the timber detailing. The rich painted tone adds depth and visual interest to the space.

DOVETAILING DURABILITY AND DESIGN

-

With decades of timber buying expertise behind us, you can be sure that the materials we use to build your bathroom are of a strong provenance and an associated strength of quality. Crafting your furniture with such superior materials ensures a beauty of finish that shines through across the timeless designs of the Bathroom Furniture Makers collection.

This is about choosing the right materials that will look and perform in the right ways across your bathroom furniture: dovetailing durability with design.

Whilst there's a comfortable, historic charm about the natural warmth and beauty of wood thanks to its unique graining and rustic details, it is a timeless material that can be cleverly positioned in the most contemporary of settings.

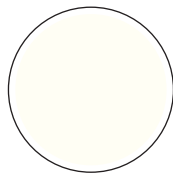

It can easily set off a wide selection of accompanying worktop, handle, flooring and tiling materials, whilst providing a natural way of incorporating texture thanks to its delicate imperfections. It can embrace classic curves and carvings to create decorative features and is hard to beat when it comes to a blank canvas or coordinating painted colour.

But remember that not all wood is good; not all wood performs the same and sadly not all wood is specified with due care and respect for the environment.

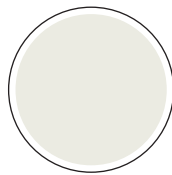

COLOURS

-

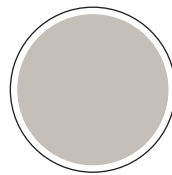

We've been curating tints and hues long before curating became an interiors buzzword, because we know that colour is the one area where you can really make your mark and stamp your personality.

We also know that colour is clever, which is why our palette of 18 painted colours is just as strong on the light-introducing neutrals, as it is with braver, bolder mood-making shades.

Trust our judgement and be inspired from our expert choices. Take our lead when it comes to using colour to craft, harmonize, or invigorate your bathroom design.

However you decide to use colour, your bathroom furniture is expertly hand-sprayed by our skilled technicians in the Burbidge UK workshop using paints that guarantee colour-fastness whilst

having a low environmental impact. This quality commitment achieves perfect results, highlighting the subtle beauty of your bathroom's wood grain beneath your colour.

18 shades are available for you to choose the perfect colour combination, but if you can't find your perfect match, then opt for the ultimate in personalisation - our bespoke painted service means we can accurately match your painted bathroom to a colour swatch from any manufacturer. This gives you complete freedom, and lets you be as brave or subtle as you need or want to be.

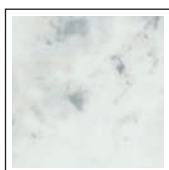

WORKTOPS
